RIVER AND STEAMBOAT NEWS.

five inches on Harpeth Shoals this morning.

THE WEATHER has been rather cool and cloudy, with occasional light showers. There have, probably, been heavy rains up the river, and we may look for a very good tide.

ARRIVED .- Yesterday there were four arrivals-the Nettie Miller, Umpire and Monticello, from Paducah, and the Hartsville from Clarksville. The Monticello reports nineteen inches on the Shoals when she came over.

DEPARTED. - The Nettie Miller, for Paducah, left last evening.

The Monticello, for Paducah, and the City of Huntsville, for Memphis, are advertised to leave to-day.

MEMORANDUM of steamer Umpire-Nov. 1-At Paducab the Ohio river falling with only four feet want of water. Nashville taking on cargo expecting to leave Saturday the 3d. Alida laid up for er. Emmn Brooks progressing toward completion rapidly. Met A. L. Davis. Passed Yorktown laid Shylock at head of Ball Island. Passed Albertine's keel boat aground on Dover shoals. Passed Als bertine and Ella at foot of Elk creek shoals, both laid up. Nov. 8, passed Dr. Robertson, Hartsville and Monticello at foot of Harpeth shoals waiting for more water. Passed Justice aground at head of the shoals. Nov 4, arrived at Nashville at 44 P. M.

We copy the following items from the Cincinnati Columbian, of the 31st ult:

The river was falling all day yesterday, and last evening it was still withdrawing its boundaries. The weather was mild, and considera-Pittsburg so shallow is the water at variou points, that it is perfectly impossible for heavily laden vessels to pass. Downward bound until a rise occurs.

The landing was less alive with business ves terday than the day previous, although not so desperately dull as during the greater portion \$33 per ton-time, -St. Louis Rep. Oct. 31. of last week.

Light freight is offering quite briskly for up the-river ports, while for shipment below there is no amount worth mention.

River men very naturally complain thereat, and express themselves as earnestly, though not very hopefully, looking for the good time coming when freights and the river will emulate each other in seeing which can get the

Prices of freight remain firm at the quotations of yesterday. They still, like good yeast, have an upward tendency.

Those who left Nashville on the Alida, reached shoals. But those who left on the Hartsville, some few hours afterwards, had to wait at the Shoals until the steamer Justice, which was aground in the ghannel, could be sparred around to make room for the Hartsville to pass, which was, much to the gratification of all, accomplished by 10 o'clock the next strong indisposition has been manifested to day. What Democracy is Doing.

The Union and American of Saturday, has an article trom a Helena paper, attempting to show what the American party has done, and to fasten free soilism upon that party. This is the old game of our opponents, and the one in which they take especial delight. But we beg to refer our neighbor to his own household, to see what Democracy is doing. John Van Buren recently wrote a letter to the Washington Union, in which he said:

"Every candidate on our State ticket now, except one judge and the canal commissioner, was openly and warmly the advocate of Martin Van Buren in 1848. They were proud of it then, and I believe I do them no injustice when I add that they have been prouder of it every day since."

THIS remarkable preparation contains no alcoholic stimulent, no essential oil, nor one unhealthy drug. It does not color the hair, but acts upon the secretions and secre-

tive organs, so as to supply the former with the necessary coloring matter, and upon the latter, so as to completely restore their impaired or lost functions. All this the propri etor has a right to say, for it has done all this for him. At the age of thirty-seven he was as gray as the man of sev-enty, and his hair nearly all fallen off; but he now has an abundant crop, and no person would ever imagine that he ever had a gray hair, and his hair is as soft and pliable as though it had been recently oiled. This is not an isolated case; it has done the same for many others, as the following certificates abundantly prove. Sr. Paul, Jan. 1, 1855.

THE MOST WONDERFUL

Discovery of the Age.

Prof. O. J. Wood—Dear Sir: Unsolicited I send you this certificate. After being nearly hald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber and had my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in till the scalp was all a glow. This I repeated every morning, and in three weeks the oung hair appeared, and grew rapidly from August last up to the present time, and is now black, thick and strong— soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not?—but have never hitherto seen any case in which any person's hair was really benefitted by the aid of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here saw its effects and have confidence in it. All who have used it here will coincide with me in what I have written. The supply you sent us as the wholesale agents of the Territory is already exhausted, and daily inquiries are made for it.—
You deserve credit for your discovery. I, for one, return you my thanks for the benefit it has done me, for I certainly ad despaired long, long ago of ever effecting any such remainder.

CARLYLE, Ill., June 27, 1858. I have used Prof. O. J. Wood's Hair restorative, and have similard its wonderful effect. My hair was becoming, as I admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restora-

tive, it has resumed its original color, and I have no doubt permanently so. SIDNEY BREESE, Ex-Senator United States. BROOKFIELD, Jan. 12, 1855. Prof. Wood - Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say that its effect has seen excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troub-

led from childhood, and has also restored my hair, which

was becoming gray, to its original cotor. I have used no other article with anything like the same pleasure and profit. Yours, truly, J. K. BRAGG. 114 Market st., St. Louis, Mo., March 8, 1855. Dear Sir: I am doing an extensive travel in the Wostern and Southwestern States, as General Agent for Adams' American Liniment, and would be glad if you would favor me with a consignment of Prot. Wood's Hair Restorative, as feel assured that I can introduce it in many places where it is not known, as my own head is a fiving testimony of its valuable properties, in restoring hair to its natural color.— I am forty years old, and my hair was almost white, but af-ter using three half-pint bottles, my hair is as beautiful au-
